

Playbook

```
graph LR; Playbook -->|1-to-many| Play; Play -->|1-to-many| Host; Play -->|1-to-many| Task; Task -->|1-to-1| Module;
```

The diagram illustrates the relationships between five Ansible components: Playbook, Play, Host, Task, and Module. All components are represented as yellow rectangular boxes. The relationships are as follows: A Playbook is associated with one or more Plays (indicated by a horizontal line with a vertical tick and a multi-pointed arrow). A Play is associated with one or more Hosts (indicated by a horizontal line with a vertical tick and a multi-pointed arrow). A Play is associated with one or more Tasks (indicated by a vertical line with a horizontal tick and a multi-pointed arrow). A Task is associated with exactly one Module (indicated by a horizontal line with a vertical tick and a single-pointed arrow).
